The American Farmer,

Devoted to Agriculture, Horticulture and Stock Raising.

Is published monthly in the City of Baltimore, Md., by Samuel Sands, 128 Baltimore St.

On the 1st of July, 1853, a new volume commences, which will be the 9th of the present series, and the 35th year since its commencement. It is the oldest journal devoted to agriculture, published in this country, and has never been in a more flourishing state, or more popular than it is at the present time—the increase in its subscription list since it took its present form, has been regular and gratifying, and since the commencement of the year 1853, has been unusually large. The "Farmer," the publisher flatters himself, has been in no inconsiderable degree, the instrument in awakening the farming interests to the improvement that is now going on in the Middle States of the Union; and he believes that but few of his readers will fail to acknowledge that the work has been worth to them many times the annual subscription.

Terms—\$1 per annum; 6 copies for \$5—13 for \$10—30 for \$20, payable in advance.

We would call attention to the following list of PREMIUMS.

In accordance with our usual practice the following premiums will be awarded to those who send us the largest list of subscribers, up to 8 o'clock on the first evening of the annual meeting of the State Agricultural Society, viz:

For the largest list, with the cash, \$50

" 2d do do 35

" 3d do do 25

" 4th do do 15

The Subscribers will be received at the club prices, viz:—6 copies for \$5; 13 copies for \$10, and 30 for \$20, and may be sent on from time to time, as obtained, to the hour indicated, when the decision will be made, and the premiums awarded in cash, silver plate, or agricultural implements, at the option of the party. All communications to be addressed to

MEXICAN

Mustang Liniment.

"THIS Liniment is unequalled for the cure of Rheumatism, Neuralgia, Bruises, Burns, strains, Corns, piles, Tumors, stiffness, Old sores, swellings, or pains in any part of the body an external application can reach. A volume of certificates could be given from those that have had horses cured of ringbone, spavin, scratches, windgalls, saddle galls, cracked heels, stiffness or any enlargement of bone or muscle.

THROUGH BY EXPRESS!!

This is to certify that the

Mexican Mustang Liniment

Has been used quite extensively in the stables of Adams & Co.'s Great Southern, Eastern and Western Expresses, for curing galls, chafes, scratches, sprains and bruises, and it has proved very effectual. Many of their men have also used it on themselves and their families, and they all speak of its healing and remedial qualities in the highest terms. One of our hostlers got kicked, and badly cut and bruised on his knee—as usual, the Mustang Liniment was resorted to, and the soreness and lameness was soon removed, and it was perfectly well in three or four days. We have no hesitation in recommending it as a valuable preparation, to be used externally on man or beast.

J. DUNNING, Foreman

Of Adams & Co.'s Express stable, N. Y.

We take great pleasure in recommending the Mexican Mustang Liniment to all our friends and customers as the best article we have ever used for sores, sprains, or galls in horses. We have used it extensively, and always effectually. Some of our men have also used it for severe bruises and sores, as well as rheumatic pains, and they all say it acts like magic—we can only say that we have entirely abandoned the use of any other Liniment.

Dover, N. H., Jan. 26, 1853.

Messrs. A. G. Dragg & Co.—I had a valuable horse that about three weeks since was wounded severely in his thigh, with a sharp hook, opening a gash three inches in length and an inch or more deep. I tried various articles to heal it, but inflammation getting into it caused large quantities of matter to collect, and the limb was quite stiff. A friend of mine asked me if I had tried the Mustang Liniment, to which I replied in the negative, but thinking it would do some good was induced to try it. I had only used one half bottle when the inflammation began to be removed, and the wound to heal. Now it is entirely healed and the hair is growing over the wound, making it look as well as ever. Hoping that others may be benefited by a trial of your valuable compound, I remain yours,

CHAS. E. WHITEHOUSE.

Russell county, Ala., Feb. 1st, 1853.

In justice to the proprietors, and for the benefit of the afflicted, I feel it my duty to state publicly, the remarkable cures that have been effected in my family by the use of the Mustang Liniment. A Negro of mine had what was called a Bone Felon, or whitlow on her middle finger; the pain was most intense and excruciating. The inflammation had been so extensive that the whole finger had almost become a mass of corruption, and the only hope of saving her hand, and perhaps her life, appeared to have cut off. As her general health was very delicate, the physician advised us to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm, and might prevent mortification. To the astonishment of the doctor, and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is now perfectly well and sound! One of my boys was severely burned. The skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure was almost beyond belief—but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation.

JAS. PHILLIPS.

PRICES.—The Liniment is put up in three sizes, and retails for 25 cents, 50 cents, and \$1 per bottle. The 50 cent size contains 3 times as much as the 25 cent size, and the \$1 size has 3 times as much as the 50 cent size. The large sizes being much cheaper.

Prospectus

Of the "Democratic Monthly Review."

The Rights of the States, and the Union of the States.

It is the intention of the subscribers to publish on the first day of every month, beginning with the month of May next, simultaneously in the cities of Washington and New York, a periodical, to be entitled the "Democratic Monthly Review." Each number will contain at least 96 pages, and be printed on fine paper in a very superior style. It will also be embellished with a finely engraved portrait of a distinguished living man, embracing statesmen, soldiers, artists, and authors. The political character of this Review will be, as its title indicates, democratic, and one of its main objects to elucidate the true principles of the democratic party. It will examine, in a spirit of fairness and candor, all the leading measures of the present administration, and to accord to them a cheerful support. Should we, however, unfortunately differ in opinion on any point from the President, we shall not hesitate to express our own sentiments, and present the reasons that constrain us to do so—submitting to the democracy of the country the decision between us.

This Review will also aim to furnish its readers with a graphic and comprehensive notice of the new works published, which may seem to be entitled to it, and also a record of all scientific discoveries and improvements.

The present condition of the nations of Europe, and the attitude in which some of them stand towards certain portions of this continent, have invested our foreign relations with the utmost importance. Never was this government placed in a situation of more critical difficulty than at the present moment. The most inflexible firmness, far-seeing wisdom, and adroit skill will be required to avoid complicating our interests and affairs with those of Europe. We confidently trust the administration will be equal to the task. We shall watch with unsleeping eye the progress of affairs in Mexico and the West Indies. Here alone is our vulnerable part.

This Review will abstain from all personality, and seek to harmonize and unite the democratic party, both in feeling and principle. It will be the exponent of no clique, faction, or individual. The editor will speak for himself, independently and fearlessly, under a thorough sense of the responsibility, he assumes. The undersigned have selected an editor, after a careful consultation with their prominent democratic friends, and have chosen one whose ability and experience they believe will secure for him universal confidence and respect. From this article the public can form a correct estimate of the merit of this publication. Several of the most distinguished writers in the country have engaged to become regular contributors to our pages. We ask neither confidence nor patronage if they be not deserved.

Our first number will contain a general outline of the course we design to pursue in future.

The editorial department is under the control of Ovid F. Johnson, esq.

Terms: Four dollars per annum, payable in advance.
